Every measure having for its object the amelioration of the condition of the working class, was turned down by the last democratic legislature. Now democratic papers are using the same old 'lasses to catch the flies. They say the republicans would have done the same thing, were they in position to control territorial legislation, and also set up that heretofore the democrats have always favored the workingman. While this statement may be true the fact remains that the class of men the democrats have been electing to office of late years in Arizona would never pass muster in any other country of earth. For the greater part they have been the riff-raff and off-scourings of every political party of the country. The parties with which they formerly affiliated refused them recognition and they knocked at the doors of the other organizations one by one until at last they reached the last house in the row, where they were received with outstretched arms. The democracy of the past few years was willing to take in any old political renegade who applied for admission and in the hurry and bustle of admitting and enrolling the new converts the leadership of the organization was not placed under lock and key and the renegade addition to the party deliberately stole it. The acquisition of a party leadership was something so new and novel to these fellows that they at a loss to know what to do with it and at the same time keep the other fellow from getting away with it. The quarrel arose and the fight is on. The old line party man is arrayed against renegade and the renegade against renegade for party supremacy. It matters little who succeeds, because the people are coming to their senses and will elect to office only men who are qualified to fill them.

There was paid into the democratic treasury by candidates for county offices, the past few weeks, sums of money aggregating in excess of \$200. This money was to be used for the purpose of paying clerks and judges of election in the various precincts of the county, but the "rat" editor of the "rat" sheet, with his usual proclivity of reaching for everything in sight, reached out to rake in the pot, but failed to get it. He blustered around about the great amount of work he had done for the committee and party, but it bought him nothing. When all the other expenses are paid the "rat" sheet will get what is left, if there are any leavings. The "rat" sheet and the "rat" editor are not in the democratic party for their health, but for the dough there is in it.

The record of Boss Mike Scanlon for the past four years will show the expenditure of many thousands of dollars over the preceding four years. In the expenditure of this big sum of money the recorder's office got away with a big chunk of the rake-off. Boss Mike, as a supervisor, gave an exhibition of the best method of rewarding heelers out of the public crib. To him it was a matter of no concern that the tax rate was going up to altitudinous height if only his party mendicants were properly looked after. The people will have an inning in the near future and then the Boss and his heelers will have to do some digging up of the money they dishonestly dragged from the treasury.

The fire in the United Verde mine has been under way for two years past, but it was believed to be confined in a small territory on the second level. A month ago it broke through the bulkhead and obtained foothold in the third and fourth levels. New bulkheads have been put in and the fire again prevented from spreading. Carbonic gas will be forced in and in a

few weeks, it is thought, the fire will be fully under control. The closing down of the mine and smelter at this time has been a hard blow to the workmen and businessmen of Jerome.

The Santa Fe railroad has been carefully investigating the industrial outlook of this county with a view to advertising its resources. This corporation for the past eighteen years received rich benefits from this county and a few thousand dollars expended in advertising would not be at all out of place.

Col. Wilson has made an emphatic denial of the charge that he failed to pay his miners, and also intimates that he will commence libel proceedings against the Gazette for circulating the report. If Col. Wilson was not entitled to pay the miners employed by him why did he not give the men the name of the responsible party.

Two of the democratic candidates for sheriff in Yavapai county are telling some hard things of each other. If their statements are to be believed they would be perfectly at home in the company of Boss Mike and his compatriots, "rat" editor St. Charles and Heeler Feeny.

Pima county's tax levy has been placed at 2.80%. The actual levy is but 1.666% on the 100% of valuation for county purposes, the balance—1.13—being the territorial levy. Maricopa county's levy is but 2.40. Mohave county can always go these counties a few better.

The use of oil for fuel purposes is among the probabilities in New York and other eastern cities this winter if the strike of the hard coal miners is not soon settled.

This winter promises to become a boomer in Mohave county—Every section of the county reports renewed activity in mining and associated industries.

Cured Paralysis.

W. S. Bailey, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liniment, which cured her all right. I have also used it for old sores, frost bites, and skin eruptions. It does the work." 25c, 50c and 1\$ bottle at H. H. Watkins' drug-store.

Look Pleasant, Please.

Photographer C. C. Harlan, of Eaton O., can do so now, though for years he couldn't because he suffered untold agony from the worst form of indigestion. All physicians and medicines failed to help him till he tried Electric Bitters, which worked such wonders for him that he declares they are a godsend to sufferers from dyspepsia and stomach troubles. Unrivalled for diseases of the Stomach, Liver and Kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by H. H. Watkins' drug-store.
